January 2023

### FOOTWEAR

Dear Parents/ Caregivers

The following information outlines the school uniform policy to follow from the commencement of 2023.

Letters home recently stated that footwear has been a problem for some time at our school. The subjects studied specific to our faculty area requires footwear that is acceptable under Work, Health and Safety standards.

Our areas include the following workshops to industry standard- wood, metal, drawing, engineering, textiles and kitchens.

In summary:

**For safety and aesthetics for students are to wear fully covered black leather/suede shoes or leather work boots.**

**It is not acceptable to wear canvas shoes.**

For safety purposes, if your **child is not wearing** the required footwear to the above classes, they **will not be able to participate** in classroom activities.

In anticipation, we thank you very much for supporting this policy and our working together for the benefit of all our students.

Yours Sincerely

A handwritten signature in cursive script, appearing to read 'C. Constable'.
